Submission will Join Journalist Entries From Around the World*

**London: 24<sup>th</sup> February 2006.** -- The World Leadership Forum, organisers of the Aerospace Journalist of the Year Awards, has announced that from 2006 entries will be accepted in four different languages: English, French, German and Spanish.

Announcing the change, World Leadership Forum President Malcolm Turner said: "In the past we only accepted entries published in English. Submissions published in other languages needed translations, and that deterred many non-English publications from entering. From 2006 we will accept entries in four major European languages, meaning that many more publications and journalists can now enter."

The international Aerospace Journalist of the Year Awards, organised in conjunction with the *Royal Aeronautical Society*, are the world's most important awards for aviation writers and broadcasters.

**This year marks the tenth anniversary of the awards, which were first presented in London in 1996. Since then the presentation ceremonies have alternated between Paris and London.**

**The Dinner & Presentation Ceremony is the only event in the global aerospace calendar that brings together all the key players of the aerospace industry, and the aerospace media, for an evening focussed entirely on excellence in aerospace journalism.**

**The 2006 Aerospace Journalist of the Year Awards Dinner & Presentation Ceremony takes place at the Royal Courts of Justice in London on the evening of 16th July.**

**Entries are already being accepted for the 2006 awards. For full details, including entry form and rules go to [www.ajoya.com](http://www.ajoya.com).**

**The World Leadership Forum is a not-for-profit organisation which promotes leadership internationally by spotlighting the work of exceptional leaders and achievers in a host of disciplines.**

**World Leadership Forum ([www.World-Leadership-Forum.org](http://www.World-Leadership-Forum.org)) events include the World Leadership Awards, the Business Journalist of the Year Awards, the Science, Engineering & Technology Student of the Year Awards, and the Aerospace Journalist of the Year Awards.**

**eMOTION! REPORTS.com Publisher Myron D. Stokes is pleased that the ER team has been invited to participate. "We join the World Leadership Forum in encouraging aerospace journalists from around the world to submit entries to this prestigious competition. There is a large body of work analysing the affairs and inner workings of the one of the two largest industries on the planet, and one that has been the primary driver in technological advancement. From the Montegolfier Brothers to the Return to The Moon initiative, there is a rich history and an exciting future involving the human quest to conquer air and space."**

*eMOTION! REPORTS.com is an automotive/aerospace industries research and analysis site that targets professionals within the academic, media, corporate and government sectors. It has also created an environment wherein white papers and other scholarly research can be presented to a broadened, yet still very defined, audience, inclusive of "Crisis On Asimov: A Vision of 2085"; "Super-Globalism: Strategies For Maintaining a Robust Industrial Base Through Technological, Policy and Process Improvement" and 'Quantum Parallel: The Saint-Hilaire Quasiturbine as The Basis For a Simultaneous Paradigm Shift in Vehicle Propulsion Systems."*
